

# Horizon Tours

## A sustainable tour

All the locomotions will be made by using the public transports: the train to circulate from a city to another and the bus to circulate inside the cities when it is too long on foot. Indeed, we privilege the foot transportations because it is free and the most sustainable way of transportation.

We will be staying in budget hotels and in common rooms of maximum 5 people by room: the best way to meet people!

The days won't be too busy, to give you leisure time. Some free time will be given around beaches to sunbath and enjoy the water!

We hope to see you soon!

## THE LOVELY SAXONY AND LOWER SAXONY

Horizon Tours Belgium is a brand new tour operator situated in the charming city of Namur. Located near the city center and the Tourist office, our agency has a target of young people.

Indeed, we offer tours in beautiful and adventurous regions, for young people who want to take a break after the exams, spend time with their friends or meet new people.

Our tours are made to be sustainable by using the public transportation or simply walking. We guarantee open air activities and a lot of free time, dinners in local restaurants and also free dinners/lunches.

All the accommodations are included in the price: nights in common room to facilitate the relationships!
